SUMMARY

Final-year B.Tech student skilled in programming and project-based work. Quick learner, adept at applying new concepts to practical solutions. Seeks roles valuing clear thinking and hands-on learning.

EDUCATION

XII - Science (CBSE)
Sri Prakash Synergy School
2020 - 2022 | CGPA : 8.4

B.Tech - Data Science & Artificial Intelligence
ICFAI Tech, Hyderabad
2022 - Current | CGPA : 8.26

TECHNICAL SKILLS

Python , Java, SQL, Git, JavaScript, MongoDB, Node Js, React, Express, DSA

HOBBIES

Badminton, films, music, exploring AI tools, journaling

ACTIVITIES

Zoho Young Creators Program (Offline): Built basic dashboards and portals using Zoho Creator. (2 days)

Outskill GenAI Workshop (Online): Covered video, audio, and content creation basics. (3 days)

EXPERIENCE

3Zen Consulting
Intern | June – July 2024

Learned and applied **SEO fundamentals**, including keyword research, on-page optimization, and basic performance analysis.

DLRL-DRDO
Project Intern | July - Dec 2025

Designed and developed a scalable **Python-based desktop application** using **PyQt5** to process, analyze, and visualize radio signal data in a structured and user-friendly manner.

PROJECTS

Heart Disease Detection: Cleaned health data from a Kaggle dataset and built a machine-learning based system to estimate heart disease risk using medical parameters.

Radio Signal Cleaning & Visualization: Developed a Python (PyQt5) application to clean radio signals and visualize analysis results using Pandas and Matplotlib.

WanderLust (MERN): Built and deployed a full-stack Airbnb-style web application with authentication, authorization, and API integration.

PROFESSIONAL SKILLS

Good listener, clear communication, quick learner, team collaboration, leadership
