AAYUSH PANDEY

Machine Learning Engineer
aayushpandey016@gmail.com | +91 80747 00418 | LinkedIn | GitHub | Portfolio

SUMMARY

Data Science & AI graduate with hands-on experience in machine learning, Python development, data analysis, and full-stack development. Experience in building practical solutions including predictive ML models, MERN applications, and Python-based signal analysis and visualization tools.

EXPERIENCE

Defence Electronics Research Laboratory (DLRL), DRDO **Hyderabad, India**
Python Developer Intern *Jul 2025 – Dec 2025*

- Developed a Python-based PyQt5 GUI for analysis and visualization of polyphase modulation signals.
- Implemented data processing and visualization workflows using Pandas and Matplotlib.
- Worked with noisy radio-signal data for signal cleaning and visual analysis.

3zen Consulting **Hyderabad, India**
Digital Marketing & SEO Intern *Jun 2024 – Jul 2024*

- Gained practical experience in SEO, digital marketing, professional workflows, and workplace communication.

PROJECTS

Heart Disease Prediction *Python, Pandas, Scikit-learn*

- Built a machine learning classification model to predict heart disease probability using a Kaggle dataset.
- Performed data cleaning, preprocessing, exploratory analysis, model training, and evaluation using classification metrics.

WanderLust – Full-Stack Web Application *MERN Stack, MongoDB*

- Developed an Airbnb-inspired accommodation platform with authentication, authorization, CRUD operations, and REST APIs.
- Implemented MongoDB database operations using Mongoose and integrated MapTiler and Leaflet for interactive listing locations.

Polyphase Modulation Analysis & Visualization *Python, PyQt5, Pandas, Matplotlib*

- Developed a desktop GUI for analyzing and visualizing polyphase-modulated radio signals.
- Built visualization workflows for examining signal characteristics and processed noisy signal data.

TECHNICAL SKILLS

Programming: Python, Java, C, JavaScript
Machine Learning & Data Science: Machine Learning, Data Preprocessing, EDA, Classification, Model Evaluation, Pandas, NumPy, Matplotlib, Scikit-learn
Web Development: HTML, CSS, JavaScript, React, Node.js, Express.js, MERN, EJS
Databases & Tools: MongoDB, Mongoose, Git, GitHub, PyQt5

EDUCATION

The ICFAI Foundation for Higher Education (ICFAI Tech) **Hyderabad, India**
B.Tech in Data Science & Artificial Intelligence *2022 – 2026*

CGPA: 8.36 / 10

CERTIFICATIONS

- **Introduction to Large Language Models** – LinkedIn Learning
- **Zoho Young Creators Program**
- **Generative AI Workshop** – OutSkill
